SEEDS, BULBS
AND PLANTS...
With a Salesroom on the Ground Floor.
THE BEST OF FACILITIES FOR SHOWING GOODS.

GREENHOUSES AT ARLINGTON, where we grow
the plants we sell.

NO CLASS OF FLOWERING PLANTS
are easier to grow and surer to bloom than
those produced by bulbs, whether grown in
pots or boxes in the houses during the winter,
or planted in the open ground for early spring blooming,
the simplest culture being awarded by vigorous growth
and abundant flowers.

Crocus, Scillas, Snowdrops, if planted in the fall
in sunny locations will in the spring produce their fine
colored flowers usually before the snow is gone from the
more secluded spots in early March; and during April
and May the same beds may be made brilliant and charming
by the lovely Hyacinths, Tulips, Daffodils, etc., which
make a display of floral beauty rarely equalled.

For Out-of-Doors Planting the sooner after the first
of October the bulbs are in the ground the better will be
the results in the flowering when spring comes.

Shipments can be made in September with nearly
all the bulbs, except a few sorts that are not sufficiently
matured, and which cannot be shipped until November.
Among the late sorts we mention the following; viz.,
Iris Kempterji, Lily of the Valley, Lilies. When orders
for these are included with orders for earlier sorts, it is
our custom to forward such as arc ready, and make a
separate shipment of the later sorts. Should our custom-
ers prefer to have us make but one shipment, we will
hold all and send when later bulbs are received.

FREE DELIVERY on bulbs to all parts of the United
States at single and dozen prices quoted, except where
noted.

DEPTH BULBS SHOULD BE PLANTED.

To answer the many inquiries regarding the planting of bulbs,
the above chart has been carefully prepared to illustrate not only the
depth but distance apart the bulbs should be planted.

HOW TO SEND YOUR ORDER. IT IS IMPORTANT.

Orders from Unknown correspondents must be accom-
panied by cash to amount of order, or satisfactory
Boston references.

How to Send Money. We will be responsible for
money when sent to us by Postoffice Order, Bank Draft,
Express Money Order or Registered Letter.

Post-office Order costs for any amount to $2.50, 3
cents; over $2.50 to $5, 5 cents; over $5 to $10, 8 cents;
over $10 to $20, 10 cents; over $20 to $30, 12 cents;
over $30 to $40, 15 cents; over $40 to $50, 18 cents;
$50 to $60, 20 cents.

Express Money Orders are issued by express com-
panies at their agencies, and cost for amounts not over
$5, 5 cents; $10, 8 cents; $20, 10 cents; $30, 12 cents; $40,
15 cents.

Registered Letters. Every postmaster is required
to register any letter on payment of 8 cents extra post-
age. Bills, colls or stamps can be safely sent this way.
(We accept postage stamps as cash.)

The Cost of Remitting (if by the above methods) on
all orders over $1 may be deducted from the amount
sent; thus our store is practically placed at your door.
HYACINTHS

First see that your ground is properly spaded and plenty of stable manure or fertilizer put on. Plant in any good garden soil about Oct. 1, and place the bulbs about six inches apart and four inches below the surface, if in light, sandy soil, and if heavy, clayey soil, four inches is better. After the ground has frozen one or two inches, cover with old leaves about six inches, and be sure that at least a foot either side of bed is covered. If leaves are not convenient, cover with anything you have and place boards over to keep from blowing away. In the spring, on the approach of warm weather, the covering should be gradually removed, as the plants will be above ground before the frost is out of unprotected places. To guard against injury from late frosts, a covering of some sort should be in readiness to put on. The size of your flower will depend largely on the richness of the soil.

There is no bulb that is more easily managed or gives better satisfaction when grown in pots than the hyacinth. Select solid bulbs without regard to size for this purpose, and place a single bulb in a five-inch pot filled with any good potting soil; a light, rich soil is preferable; remove a small quantity from the center, and place the bulb in firmly, but do not have the soil hard beneath it, leaving about one-third of the bulb visible. After potting, give them a good watering and set away in some cool, dark place, and cover six or eight inches with soil or coal ashes, that the moisture may be retained and the frost or heat excluded. Leave in this condition until Dec. 1, and then for a succession of blooms, bring to the light some every two weeks, bearing in mind that they should not be placed directly in the sun at first, as they will need several days to get acclimated to the new atmosphere. The bulbs should be selected and potted as early as possible to obtain the best results.

For this purpose select the largest and heaviest bulbs and place in the glasses filled with water enough to just touch the bulb, then place the glass in a cool, dark place until the roots touch the bottom of the glasses, then bring to light, bearing in mind that they never should be placed where the full rays of the sun would come direct on the glass, as it would have a tendency to warm the water to a degree which would injure the roots and produce an inferior flower. The window-sash is the worst place that one can put them. Always select single-flowering varieties for the best results.

MIXED HYACINTHS

... FOR THE GARDEN ...

IN SEPARATE COLORS.

When an effective display alone is the object, the following will answer every purpose. These are well developed bulbs of good size, selected from the named varieties, so that each color embraces many shades. Blue, for instance, dark and purple; red, rose, blush, etc.; white, colored eye, shaded, etc.

Hyacinths by the dozen are delivered free in the United States. By the hundred purchaser pays transit.

SPECIAL BEDDING HYACINTHS

WITH NAMES, OUR SELECTION.

Hyacinths under this heading are selected from named bulbs. They are of the same age as the fancy-named Hyacinths on pages 2 and 3 and will average as large as those often sold as first size named by some dealers, and are offered in this way where special effect is desired in separate colors with names. All belong of one shade of color and all blooming at one time, they are of great value for forcing or bedding out.

FROM this class of Hyacinths the best blooms are obtained, as the largest and best bulbs are selected. They are not ordinary sized bulbs, but extra large, selected for use where size of bloom is wanted, for forcing in pots during the winter, or grown in glasses. In this way they make very suitable ornaments for the parlor or sitting-room, and can be grown very successfully.

3 of one variety sold at dozen rate, 25 at 100 rate, your selection, from any of the following varieties or on pages 2 and 3.

**RED and ROSE.**

Amy, very dark red, fine spike.
Baron van Thuyl, rose, fine spike.
Charles Dickens, dark rose, extra fine.
Cosmos, dark rose, clear center.
Eliza, deep rose.
Fabiola, fine rose, large spike.
Garibaldi, brilliant red, very fine.
General Pelissier, dark red, very early.
Gertrude, fine red, good spike.
Giganthea, pink, extra large spike.
Homerus, very early, dark rose.
Josephine, orange red, early, very fine.
L'Adorable, light rose.
L'Incomparable, fine brilliant, extra fine.
Lord Macaulay, dark rose, extra large bells.
Maria Cornelia, early, bright rose.
Moreno, beautiful pink, very large truss, good forcing variety.
Norma, pink, extra large bells, early.
Robert Steiger, deep red, good spike.
Roi des Belges, bright scarlet, large truss, very early.
Von Schiller, deep salmon pink, striped with crimson.

Excellent for florists.

**BLUE.**

Baron van Thuyl, bright blue, compact spike.
Charles Dickens, porcelain blue, shaded with purple, excellent spike.
Czar Peter, light porcelain blue, extra fine spike.
Grand Lilac, lilac, fine truss and bells.
Grand Maître, deep porcelain, extra large spike.
King of the Blue, dark indigo blue, extra.
La Perouse, clear porcelain blue.
Leonidas, dark sky blue, handsome spike, early.
Lord Derby, fine porcelain blue, large bells and truss.
Marie, dark blue, large spike.
Orontatus, light porcelain blue, very early.
Pineman, deep porcelain, large bells, immense truss, extra fine.
Porcelain Scepter, porcelain blue.
Prince of Wales, dark blue, with white eye.
Queen of the Blues, light blue, fine large bells.
Regulus, light blue, large bells and spike.
Sir Henry Buckley, black, extra early, large spike.
William I., early, very dark, glittering.
**SINGLE HYACINTHS—CONTINUED**

**WHITE and BLUSH WHITE.**

- Alba Superbissima, pure white, fine truss.
- Albertine, very early, pure white.
- Baron van Thuyll, pure white, large truss, early.
- Blanchard, pure white, extra long spike.
- Grandeur a Merveille, rosy white, extra.
- Hereules, blush white, early.
- La Franchise, waxy white, large bells.
- La Grandesse, pure white, large bells, extra fine.
- L'Innocence, pure white, extra large bells.
- Lord Gray, blush white, very early.
- Madame van der Hoop, pure white, large bells.
- Mammoth, rosy white, extra large bells.
- Maria Stuart, pure white, good spike, extra quality.
- Mina, pure white, extra large bells.
- Mont Blanc, pure white, extra large bells, splendid.

**DOUBLE HYACINTHs**

**RED and ROSE.**

- Acteur, dark rose, large bells.
- Alida Catharina, satiny rose, early.
- Bouquet Royal, dark center, very fine rose.
- Bouquet Tendre, dark red, early.
- Grootvost, fine rose, large bells.
- Lord Wellington, rose, extra large bells, early.
- Noble par Merite, deep rose, extra good spike, very early.
- Princesse Royale, red and purple center.
- Prince of Orange, dark rose, fine spike, semi-double.
- Regina Victoria, salmon rose, early, good spike.

**BLUE.**

- Bloksberg, light blue, good truss.
- Charles Dickens, dark, extra large bells.
- Garrick, dark, extra large spike, early.
- Laurens Koster, fine dark blue, extra large bells, the finest double blue.
- Lord Raglan, dark and black center, large bells.
- Lord Wellington, dark blue, striped with lilac.
- Ottello, very dark blue.
- Pasquin, light porcelain, with dark center.
- Prince Saxe Weimar, dark blue, shaded violet, large semi-double bells, very early.
- Van Speyk, porcelain blue, large truss and bells.

A bed 7 feet square of Hyacinths, arranged like illustration, planted 7 inches apart, would take 38 bulbs for each division, or 190 bulbs in all; or if planted 6 inches apart, 50 bulbs for each division, or 200 bulbs in all.

Choice of the following colors: Red, crimson, white, pink, light blue, dark blue and yellow.

Price of the 150 bulbs ... $7.50

" " 200 " ... 10.00

Purchaser paying transit.

A bed 15 feet in circumference or 6 feet across, if planted 6 inches apart, requires 100 hyacinths; if 7 inches apart, 84 hyacinths.

Arranged in circles of 5 rows around the bed, planted 6 inches apart, the first center row would require 9 bulbs, 2d row 14, 3d row 20, 4th row 25, 5th or outside row 32.

If planted 7 inches apart, the first center row would require 8 bulbs, 2d row 12, 3d row 17, 4th row 21, 5th or outside row 26.

Choice of colors: Red, crimson, white, pink, light blue, dark blue and yellow.

Price of 100 Hyacinths

" 84 " ... $5.00

" 50 " ... 4.25

Purchaser to pay transit.

**WHITE and BLUSH WHITE—Continued.**

- Queen Victoria, pure white, large bells.
- Snowball, pure snow white, fine large truss. _The finest of all the whites._
- Voltaire, pale blush white, extra fine.

**YELLOW.**

- Alida Jacoba, bright canary yellow.
- Bird of Paradise, pure yellow, compact spike, one of the finest yellows.
- Duc de Malakoff, orange yellow, early.
- Ida, bright primrose, extra fine spike.
- King of the Yellows, pure yellow, large bells.
- Koning van Holland, orange yellow, early.
- La Pluie d'Or, light yellow.
- L'or d'Australie, clear yellow, large fine spike.

**WHITE.**

- Anna Maria, with purple center, early.
- Bouquet Royal, pure white.
- Duchesse de Bedford, pure white, extra large.
- Flevo, pure white, late.
- Jenny Lind, white, with purplish center.
- La Tour d'Avvergne, early pure white, extra large spike.
- La Virginithe, white, with red center.
- Non Plus Ultra, white, with purple eye, fine spike.
- Passe Virgo, early, with red center.
- Prince of Waterloo, pure waxy white, with rose center, fine truss of large bells, early.
- Sceptre d'Or, pure white, orange center.

**YELLOW.**

- Bouquet d'Orange, dark orange, semi-double.
- Goethe, sulphur yellow, good spike, early.
- Jaune Supreme, dark yellow, large bells.
- Ophir d'Or, pure yellow.
- William III., yellow, with red center, fine compact spike.

_A Bed of Hyacinths._
**ROMAN HYACINTHS**

This beautiful and valuable variety, if planted early in September and gently forced, will bloom in November, or their flowering may be retarded until Christmas by keeping them in a cool place. By successive plantings they may be had in bloom until March, being thus very useful for florists. The flowers, which are smaller than the ordinary Hyacinth, are produced in great profusion, each bulb throwing up three or four spikes of delicately-scented, clear, white blossoms. For a good effect, from three to five bulbs should be planted in a medium-sized pot.

At single and dozen price, delivered free in United States.

**WHITE ITALIAN OR PARISIAN.**

On account of the profusion of bloom, fragrant and graceful spikes, they are extensively grown by the florists for the winter flower markets. Blooming a little later than the Roman Hyacinth, they are useful for a succession of flowers.

5 cents each; 50 cents per dozen.

40 cents per dozen; $2.75 per 100.

purchaser paying transit.

**Miniature, or Dutch Roman Hyacinths.**

Price, 5 cents each; 40 cents per dozen, delivered free; or, 35 cents per dozen; $2.75 per 100, purchaser paying transit.

For growing in pots, pans or boxes for winter flowering they are grown with excellent satisfaction. The flowers are smaller than the ordinary Hyacinths; each bulb will produce several spikes of flowers; if planted early may be had in flower at Christmas. Ten or twelve bulbs are planted in earthen pans eight or nine inches across. When several of these pans are filled and put away they can be brought to light at different times and thus have a continuous bloom.

White, Pink, Crimson, Blue or mixed colors.

**GRAPE HYACINTHS.**

An extremely pretty family of flowers, sometimes called “Blue Lily of the Valley”; entirely hardy, they will adapt themselves to the soil and situation as naturally as grass. A few bulbs will rapidly increase and produce each spring a mass of lovely bloom. For winter blooming they give great satisfaction; a few bulbs planted in a five-inch pot and treated the same as Hyacinths will produce a lovely potful of flowers.

Blue, 2 bulbs for 5c; per doz. 15c; per 100. $0.75

White, 3 “ 10c; “ 20c; “ 100. 1.00

**MUSK** An old and much esteemed sort; pretty flowers, exceedingly fragrant, with a musk-like scent; entirely hardy. 5c each; $1.50 per doz.

**FEATHERED** It is a very curious plant, and well worthy of culture in pots as an odd and interesting flower; is entirely hardy. The color is deep blue, tinged with red. 3 for 10c; 25c doz.; $1.50 per 100.

**HYACINTHUS CANDICANS.**

*Summer Flowering White Giant Hyacinth.*

This is a magnificent Yucca-like, hardy plant, producing in July and August a flower-stem from three to four feet high, surmounted by a grand spike of numerous pendant, bell-shaped, snow-white flowers.

Each, 5c; per doz, 50c. Postage 2c. per bulb.

TULIPS

Early
Single
Flowering

For the ornamentation of the conservatory and sitting-room during the winter and spring months, the Tulip stands unrivalled, both as regards its rich and diversified colors, easy culture and accommodating habits. Like the Hyacinth, it will thrive in almost any soil or situation, and under almost any circumstances.

For out-of-doors, plant in October and November, and even in December, should the weather be open and favorable, about 4 to 6 inches apart, according to the size of the bulbs; the crown of the bulbs should be 3 or 4 inches under the surface. The same soil, etc., as for Hyacinths will suit them well. They should be protected during severe weather by branches of evergreen, or covering of straw or leaves about 3 inches thick.

Tulips are delivered free in the United States at the single and dozen price, but by the hundred purchaser pays transit.

Those marked D grow about 6 to 7 inches. Those marked M grow about 8 to 9 inches. Those marked T grow 10 inches.

LATE FLOWERING SINGLE TULIPS.  

In some locations these are known as the “May-flowering Tulip,” and closely follow the season of the early single sorts. They are largely cultivated on account of their individual beauty, being possessed of great variation of form and color, the latter being rich and distinct. A few of these ought to be in every collection, as their stately form never fails to attract attention.  

Darwin. These new late-flowering Tulips have attracted much attention in the past few years, and have been a success wherever grown and exhibited at Horticultural shows, both in this country and Europe. The flowers are single, of elegantly form, and exceedingly bright colors.

TULIPS IN BEDS.

The bulbs we supply are not the common mixed, but selected from the named varieties and put in at a reduced price.

Price for the 272 Bulbs, $4, purchaser paying transit.

A bed 18 feet in circumference or 6 feet across, if planted 5 inches apart and divided in 4 parts, required a total of 300 bulbs, or 30 bulbs for each division.

Choice of the following colors: Red, crimson, white, pink, and pine white or yellow. Price for the 200 Bulbs, $3, purchaser paying transit.

CROCUS THE FIRST FLOWERS OF SPRING.

Crocus bulbs we deliver free in the United States at least and 100 price.

This, as is well known, is one of our earliest spring flowers, and producing, as all the varieties do, dense masses of rich colored blossoms, and is beyond question the most effective of its season, and can hardly be too liberally planted in every garden. The more thickly they are planted the greater is the effect produced. With ordinary care, the Crocuses will bloom freely in any sitting room window.

Culture in Pots, Pans, Borders, etc. For pot culture use good, rich, sandy soil, and secure perfect drainage, a liberal supply of water being necessary during the blooming season. Planted in china bowls, vases, etc., filled with moss or sand, drainage is unnecessary, but on no account should the moss or sand ever be allowed to get dry. Treatment same as recommended for Hyacinths in sand or moss.

MIXED CROCUS. Blue, Striped, White and Yellow, 10 cents per doz.; 50 cents per 100; $1 per 1,000.

All colors, mixed, 15 cents per doz.; 10 cents per 100; $5.50 per 1,000.

We will deliver anywhere in the United States one dozen of each of the above 12 varieties of Crocus for $1.35.
NARCISSUS...

...OR DAFFODILS

The Narcissus has more points of real merit than any other hardy plant, and until recently the possibilities of this family have not been brought out. The florists now use these in large quantities. They are equally well adapted for the sitting-room or flower-garden, so that however limited the collection of plants may be, if there is not an equal proportion of this delightful flower it will be deficient of a most essential ornament. The culture is the same as the Hyacinth. See page 3.

We deliver in the United States all Narcissus free at single and dozen prices. By the hundred purchaser pays transit.

The improved "Poeticus," large, beautifully formed, pure white flowers with saffron cup tinged with rosy scarlet, a magnificent cut flower; very early.

**CHINESE NARCISSUS (Sacred Lily of China)**

The "Shui Sin Far," "Joss Flower," or "Flower of the Gods," etc., as it is called by the Celestials, is a variety of Narcissus, easily grown and blooms freely, bearing a very sweet-scented flower of silvery-white, with golden-yellow cups.

Use shallow dishes about three inches deep, into which put about one inch of gravel. Set the bulbs on this and fill in with small stones, to keep them upright, and keep the dish full of water. It is not necessary to put the bulbs in the dark, but if kept shaded until the leaves begin to grow, better results may be obtained. Although they will succeed in any ordinary room, it is necessary for them to be kept away from gas, as it causes the flowers to blast.

Price 12 cents each; $1.25 per dozen. If by express 10 cents each; $1.00 per dozen.

The entire collection of Narcissus on this page, 15 varieties, delivered anywhere in United States for $1.00.
NARCISSUS DOUBLE GARDEN (DAFFODILS)

All bulbs are delivered free in the United States at the single and dozen prices.

Under this head are some remarkably showy, sweet-scented, spring flowering favorites, which are especially deserving of notice on account of their easy culture, early flowering and generally effective appearance.

VON SION. Telamonius Plenus. This is the grand old "Double" yellow Daffodil, and should be in every garden. Fine for massing; also one of the best for house culture in pots. Large double, yellow trumpet flowers. The most extensively grown of all the daffodils by the florists for forcing.

3 for 12 cents; 35 cents per dozen; $2.50 per 100.

VON SION. Double Nosed Bulbs. These are larger bulbs, which will produce two or three flowering spikes.

6 cents each; 60 cents per dozen; $3 per 100.

Fine mixed varieties, 3 for 10 cents; 25 per dozen; $1 per 100.

JONQUILS

Excellent for early blooming, charming large golden and deliciously odoriferous flowers; freely produced; of the finest effect either in the garden, greenhouse or conservatory. See cut.

AGAPANTHUS...

(The Great African Lily.) Ready in November.

These are noble ornaments on lawns, in pots or tubs, on terraces or balconies, or for the decoration of the greenhouse. Foliage luxuriant and graceful; flowers borne in clusters of twenty to thirty and measure fully a foot across. The flower stalks frequently attain a height of three feet, the flowers opening in succession for a long period during the summer and autumn.

ALSTROMERIA (Peruvian Lily). Very robust and abundant blooming, with large lily-like flowers of great beauty, borne in clusters during the summer. They are especially adapted for cut flowers, being of much substance and lasting in perfection for a long time. Excellent for pot culture. Two to four feet.

Mixed varieties (ready in November), 10 cents each; $1.00 per dozen.

ANOMATHEAC CRUENTA The profusion with which the bright rosy-carmine flowers are borne and the long period they continue in flower make them very popular. Excellent for pot culture or blooming out of doors, although in the latitude of New England they need protection. Height 3 feet. 3 for 10 cents; 30 cents per dozen; $1.00 per 100.

ANTHOLYZA resembles somewhat the Gladiolus. In New England they are not hardy, but can be grown in cold frames or planted out in the spring—flowering from July to September. The tall spikes of blooms render them very effective for grouping in beds or borders. The scarlet, black, green, etc., flowers make them very effective. 10 cents each; $0.60 per dozen.
ALLIUMS

Are grown extensively for their ornamental qualities, being hardy, showy, and blooming for a considerable length of time.

Allium Neapolitanum (see cut) is amongst the earliest and grandest of winter bloomers. Its flower stems are 2 inches high, supporting a large cluster of delicate white starry flowers; sure to bloom splendidly in any window. 3 for 10 cents; 20 cents per dozen; $1.00 per 100.

Moly (Golden Allium), perfectly hardy, growing one foot high and covered with large clusters of golden flowers. Most desirable for the garden. 3 for 10 cents; 20 cents per dozen; $1.00 per 100.

AMARYLLIS

A beautiful class of plants, with large, drooping, bell-shaped, lily-like flowers, varying in color from the richest crimson to pure white, striped with crimson or scarlet. They are of the easiest possible culture, and few flowers give a better return in the shape of lasting and showy bloom for the limited amount of labor involved in their cultivation. With a very small stock of bulbs they can be had in flower at almost any season of the year by starting them in succession. A compost consisting of equal parts of good turfy loam, leaf-mould, well-decayed manure and sharp sand answers best. From the time they are started, water should be given very carefully, and not in too great quantities. When the foliage begins to decay, water should be gradually withheld until it has quite died down, when the bulbs may be stored away (in the pots), in any dry, cool place, safe from frost, until their flowering season comes again. The evergreen varieties, which do not die down, should be kept in a growing state, and shifted into larger pots as they require it.

Amaryllis (Zephyranthes) atamasco. Pink and white, variable, showy for border, 3 for 10 cents; 35 cents per dozen.

Equestre (Barbadoes) Lily. Broad petals of a soft salmon-scarlet color, marked in the center with white bars, which radiate from the white throat. 15 cents each; $1.50 per dozen.

Formosissima (Jacobean Lily). Beautiful trumpet-shaped flower of a rich, dark scarlet; free blooming; forces well, and can be grown in water like Hyacinth. 10 cents each; $1.00 per dozen.

BELLADONNA MAJOR.

(Belladonna Lily.)

(See cut.) This is an autumn-blooming variety of great beauty and fragrance; color, delicate white, flushed and tipped with rose. The spikes grow from 2 to 3 feet high, and bear from six to ten flowers. 15 cents each; $1.50 per dozen.

VALLOTA PURPUREA

(Scarborough Lily.)

(See cut.) This plant is closely allied to and was at one time recognized as a member of the Amaryllis family. It is evergreen and one of the most beautiful and desirable plants grown, producing large, crimson-scarlet, lily-like flowers in heads of five or six blooms each, which remain a long time in perfection. Large bulbs, if kept growing, will flower several times during the year. As easily cultivated as the Calla Lily. Price, 30 cents each; $3.50 per dozen.

C. L. ALLEN'S NEW BOOK ON BULBS. Handsomely Illustrated, Cloth. 12mo. Price, Postpaid, $2.00.

This is the most practical, inexpensive work on Bulbs and Tuberous-rooted plants we have seen. It gives their history, description, methods of propagation, and complete directions for their successful culture in the garden, dwelling and greenhouse.
ANEMONES

This highly ornamental class of easily cultivated hardy plants is becoming better known and more popular each succeeding year, and should occupy a conspicuous place in every garden. They are well adapted for either pot or border culture, and are unsurpassed for purity and richness of color. Plant in October or November, or as soon as the ground can be worked in the spring, and during winter protect with straw or leaves.

Double Poppy Flowered. (Coronaria fi. M.) The flowers of this class are very double, and are surrounded at the base with large guard petals resembling a double Hollyhock. For cutting purposes they are grand, and we know of no class of plants with more gorgeous colors, two or three colors usually being blended in the flowers of each variety. Mixed colors, 3 for 12 cents; 25 cents per dozen; $1.50 per 100.

Single Poppy Flowered. (Coronaria.) These handsome Single Anemones have large, beautiful, saucer-shaped, poppy-like blossoms, and during mild seasons, or in sheltered situations, are flowering continuously throughout the winter, spring and early summer. Mixed colors, 2 for 12 cents; 20 cents per dozen; $1.00 per 100.

Fulgens. (See cut.) The rich, dazzling scarlet flowers and light, elegant growth, render it the most attractive flower of spring. It is invaluable for cutting, as it lasts a long time in water. 3 for 12 cents; 20 cents per dozen; $2.00 per 100.

Fulgens fl. pl. A double flowering of the above. 5 cents each; 40 cents per dozen $3.00 per 100.

ARUM OR DRAGON FLOWER.

The Arums are remarkable and handsome plants, with fine foliage and curious inflorescence, more or less enclosed in a hooded spathe, which is generally richly colored and marked. They are hardy, and easily grown in any soil.

A. Sanctum (Black Calla) is strictly a winter bloomer, and will bloom no other time. Its flowers are enormous, fully a foot in length; color bright scarlet, so intense that it really shows a brilliancy, and as may well be imagined, it is a flower of the most striking oddity and beauty. The bulbs are large and should be potted in the fall, and when growth commences set in a window. After blooming the foliage will die down and the bulb should be kept dry for planting again in the fall. (See cut.) Price of large flowering bulbs, 16 cents each; $1.00 per dozen.

A. Dracunculus (Dragon Arum). (See cut on first page.) Flowers one foot long, purple, red and black, blue; stem beautifully marbled, leaves handsome, resembling a small palm; a rapid grower, making a curious and ornamental pot plant. 15 cents each; $1.00 per dozen.

CALLAS

White (Ethiopica). The well-known Calla Lily is one of the best plants for parlor culture. Its growth is stately, the flower showy, exceedingly fragrant, and freely produced. A commendable feature is that it effectually resists all the injurious effect which gas and furnace heat generally inflict on our floral pets. The requisites for successful culture are rich soil, plenty of water and pot room. Extra large, 25 cents each; $2.50 per dozen.

Black Calla (Arum Sanctum), is strictly a winter bloomer, and will bloom no other time. Its flowers are enormous, fully a foot in length; color, clear coal-black, so intense that it really shows a brilliancy, and as may well be imagined, it is a flower of the most striking oddity and beauty. The bulbs are large and should be potted in the fall, and when growth commences set in a window. After blooming the foliage will die down and the bulb should be kept dry for planting again in the fall. (See cut.) Price of large flowering bulbs, 15 cents each; $1.00 per dozen.

Little Gem. (See cut.) Dwarf; grows 10 to 15 inches high, and almost constantly in bloom. 15 cents each; $1.50 per dozen.

Spotted Leaf Calla (Richardia Alba Maculata). This plant is always ornamental, even when not in flower, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the old favorite white Calla, excepting being of a smaller habit. In addition to its usefulness as a pot plant it makes a fine thing for planting in the garden in the summer, being very effective. 15 cents each; $1.50 per dozen.
BABIANA.

The flowers are of rich self-colors, varying in color from the richest carmine to the brightest blue in the same flower. The leaves are of dark green covered with downy hair. Not hardy in New England, but will live when protected by cold frame. Five or six bulbs in a five-inch pot make a very attractive pot plant. Mixed varieties, 5 cents each; 40 cents per dozen, $3 per 100.

BRODIAEA.

The flowers are borne on stems one to two feet high, in clusters of red, white or blue tubular flowers. Easily forced. Can be grown in greenhouse or cold frame. If planted out in spring in clumps or masses, they flower very freely in June or July.

Mixed varieties, 3 for 10 cents; 30 cents per dozen.

COLCHICUM OR AUTUMN FLOWERING CROCUS.

Colchicum Autumnale (Meadow Saffron). The flowers comprise many shades of white, purple, rosy, striped, etc., coming in bloom in the autumn. Make very effective and handsome hardy plants, especially for borders. Mixed sorts, 5 cents each; 50 cents per dozen.

CROWN IMPERIALS.

We might say much in praise of this old-fashioned spring blooming plant, with its cluster of pendant bell-shaped flowers surmounted with a tuft of green leaves, but it is well known. Excellent for borders and shrubbery.

CYCLAMEN, GIANT.

Among the many floral pets that enliven our homes throughout the winter and early spring none are more charming than the Cyclamen. Its neatness of foliage and flower, its brilliant and varied colors, and its duration of bloom, render it desirable for parlor culture. Plant during September and October in a mixture of turfy loam, leaf-mould and sand, in equal parts. Do not cover the bulb, merely press it into the soil, and give a slight watering. Keep them shaded, and water sparingly until they start growing; then treat as other house plants.

Rose, Dark Red, Pure White. Price of any of 3 varieties, 25 cents each, or 75 cents per dozen; or the set of 3 for 90 cents. Giganteum Mixed, 20 cents each; 82 per dozen.

CHIONODDXA. "Glory of the Snow!"

A valuable, hardy, early-flowering bulb, producing spikes of lovely azure blue flowers, with pure white centers. Those who know Scilla Siberica will need no further description of this beautiful plant when we say the flowers and spikes are more than twice the size of that little gent. Lucilia. (See cut.) Flowers of a brilliant sky-blue color, with white center. 3 for 10 cents; 25 cents per dozen; $1.25 per 100.

Sardensis. A beautiful deep blue flower. 3 for 10 cents; 25 cents per dozen; $1.25 per 100.

Gigantica. (New.) This new variety differs from all others of the family by its unusually large flowers of soft lavender blue, with a conspicuous white center. It is perfectly hardy, and when grown in the house for winter flowering, it makes a beautiful effect. 3 for 10 cents; 30 cents per dozen; $1.50 per 100.

ERYTHRONTIIUM GRANDIFLORA. "Dog's Tooth Violet!"

Although called "Dog's Tooth Violet," it does not in any way resemble a violet. It is perfectly hardy, and succeeds best in moist soil or in partial shade. They succeed finely grown in pots for flowering in the winter months. The flowers are yellow, and borne on stems from 12 to 18 inches high, with six to twelve flowers on a stem. 3 for 10 cents; 30 cents per dozen.
DECENTRA, or Bleeding Heart.

Ready in November. Has dark green foliage and long drooping racemes of pink and white heart-shaped flowers. One of the most ornamental of spring flowering shrubs. 15 cents each; $1.50 per dozen.

FUNKIAS. Day Lilies.

This handsome, hardy, bulbous plant makes a very attractive appearance when planted in clumps or masses, as the pure white and fragrant flowers are borne on stout stems above the bold, luxuriant foliage, and make an exceedingly striking effect.

Subcordata Grandiflora. Milky-white flower, nearly four inches across. Fragrant. 15 cents each; $1.50 per dozen.

Variegata. Very fine full blooming plant; leaves green and white, flowers purplish lilac. 15 cents each; $1.50 per dozen.

...FREESIA...

For graceful beauty and exquisite fragrance, this important introduction rivals many an old-time favorite as a plant for parlor culture, for which it is particularly adapted. The flowers are borne abundantly, purplish scarlet, somewhat spreading. The perfume is delicious, differing from the majority of strongly-perfumed flowers in that it is never objectionable. The culture is simple. The bulbs should be potted from August to November in any good soil of a sandy texture; water sufficient should be given to soak through, after the first and second rains; then water freely and place in a sunny, temperate position, either in the house or conservatory. (See cut.)

Refrecta alba. clear white, with yellow blotch on lower petal. 2 for 5 cents; 15 cents per dozen; 75 cents per 100; extra large bulbs, 3 for 10 cents; 25 cents per dozen; 75 cents per 100.

Fritillaria. One of the earliest of spring flowers and remarkably showy. Many of the varieties are marked in spots and stripes, others regularly checked. All are of the easiest culture, and are exceedingly pretty when grown in a clump in the border. They are invaluable for pot culture.

Finest mixed varieties, 3 for 10c.; 25c. per doz.

Gladiolus. Early flowering, hardy varieties. For autumn planting or winter forcing. These beautiful, early flowering Gladiolus are greatly prized on account of their blooming in June and July, if planted in the autumn in dry soil and protected with a covering of about six inches of straw, leaves or litter. (Ready in November.)

The Bride (Odecella alba), a most beautiful, pure-white variety; an excellent forcing quality. 2 for 5c.; 20c. per doz.

Mixed, early flowering, hardy. 2 for 5c.; 25c. per doz.; $1.25 per 100.

Helleborous. The Christmas or Lenten Rose. This most beautiful class of hardy herbaceous plants grows in almost any situation very freely, blooming early in the spring, and if grown in the house or in frames will bloom during the Christmas holidays, and will continue during the winter.

Nigre. (See cut.) The true Christmas Rose, a great favorite for the house culture, producing as it does flowers in great profusion that are pure waxy white. 25c. each; $2.50 per doz.

IRIS. (Fleur-de-Lis.)

Ready about the first of November.

JAPAN IRIS. Kampert. Descriptions cannot in any way do justice to the magnificence of this Iris. They are unsurpassed. Let the weather be ever so severe they are not in the least affected. The prevailing color are from the deepest black-purple through various shades of blue, to the purest white. The individual flowers are of great size and heavy texture, flowering from the middle of June to the end of July.

Finest Named Varieties, 20c. each, 60c. per doz.

Finest Mixed Varieties, 15c. each, $1.00 per doz.

GERMAN IRIS. They are perfectly hardy, thrive anywhere, grow and bloom luxuriantly, particularly if plentifully supplied with water, or if planted in moist situations or on the banks of ponds, etc.

Germanica Finest Mixed, 2c. each, $1 per doz.; 8c. per 100.

SPANISH IRIS. Dwarf species, of great value for forcing. If planted out of doors put in well drained land and give some protection for winter.

Alexander van Humboldt. Dark blue. 20c. 25c. 30c. 35c.

British Queen. A very large, pure-white flower.

Chrysolora. Very early and extra large.

William the Third. The best dark yellow.

Finest Mixed Varieties... 2c. 25c. 30c. 35c.

VARIOUS SORTS OF IRIS.

Histrodes. Large, light-blue, spotted flowers, 20c. each; $2 per doz.

Gatesi. An exceedingly large flower, silver gray and violet, very beautiful, 50c. each.

Iberica. Pale lilac and purple, 20c. each; $2 per doz.

Florentina. Violet shaded with blue, with a yellow band.

Reticulata. Violet spotted with white, yellow and black. Extra early, 20c. each; $2 per doz.

Susiana (Morning Bride). Blush tinted, netted with dark lines, a remarkable looking and exceedingly handly flowered; succeeds well in pots, 20c. each; $5 doz.

English Iris. Finest Mixed. 3 for 10c.; 25c. doz.; $1.50 per 100.

" Mont Blanc. Very large, pure white flowers, 5c. each; 50c. doz.; $3 100.
GENERAL LIST OF LILIES...

FOLLOWING the description of each, we have indicated the height and time of flowering. None of the varieties will be ready for shipment until the last of October, except L. Harrisii, Candidum and Longiflorum, which are ready in September.

Auratum (Golden-Banded Queen of Lilies). This magnificent variety has become one of the standard favorites of the flower garden, and is considered by many the finest of all Lilies. The immense blooms, measuring nearly a foot in width when fully expanded, are produced in great profusion, and are deliciously fragrant. First size bulbs, 25c each; $2.50 per dozen. Second size, 5c each; $1.50 per dozen. (2 to 6 feet.) June to October.

Brownii. A magnificent variety, with fine large foliage; flowers very large, fine white inside, purple outside. The stamens are a rich chocolate color. 35 cents each; $3.50 per dozen.

Canadense. Our bell-shaped native Lily; drooping yellow and red flowers. 10 cents each; $1.00 per dozen.

Canadense rubrum. Vigorous grower; flower rich dark-red. 15 cents each; $1.25 per dozen. (3 feet.) July.

Candidum. The well-known hardy Easter Lily; snow-white fragrant blossoms; one of the best varieties for forcing, or for garden culture, and an established favorite. 12 cents each; $1.25 per dozen. (3 to 4 feet.) June.

Chaldedonicum. Intensely scarlet recurved blossoms, resembling a Turk's cap. 50c each; $5.00 per dozen. (3 feet.) June.

Colchicum. Rich citron-color, spotted with black. 60 cents each; $6.00 per dozen. (2 feet.) July.

Elegans Erectum. Flowers erect and borne in clusters; orange, spotted scarlet. Very hardy. 15 cents each; $1.50 per dozen. (1½ feet.) June and July.

Elegans Incomparable. A deep ox-blood crimson, slightly spotted with black. Very free and easily grown. 50c each; $2 per dozen.

Excelsum (Isabellinum). The stately form, beauty of color and delightful fragrance of this variety have made it a great favorite wherever known. It grows from 5 to 6 feet high; flowers of a delicate light-buff color. 40c each; $4 per dozen. (4 to 6½ feet.) June and July.

Giganteum. A magnificent variety of giant growth and very distinct. Color, creamy-white with purple throat. Frequently bears 12 to 15 large flowers, 5 to 6 inches long, on stems 6 to 10 feet high. Mammoth bulbs, $2 each. July.

LILIAM HARRISII (The True Bermuda Lily). The flowers are large, trumpet-shaped, pure waxy white, symmetrically formed, as beautiful and trashy as anything can be imagined, lasting from ten days to two weeks. The ends of the petals are recurved, giving it a very graceful appearance. Its fragrance is delightful. 1st size, 55 cents each; $2.50 per dozen; 2nd size, 15 cents each; $1.50 per dozen.

Kramerii. One of the most lovely of all known Lilies, slender waving stems, about two feet high, with large flowers of a most beautiful rose color. 25 cents each.

Lancifolium Album. Pure white, and very fragrant. 20 cents each; $2.00 per dozen.

—Melpomene. Very large flowers of rich blood-crimson, heavily spotted. 25 cents each; $2.50 per dozen.

—Punctatum. White, spotted and suffused with light rose. 40 cents each; $4.00 per dozen.

—Roseum. White, spotted with rose. 15 cents each; $1.00 per dozen.

—Rubrum. Rose, spotted with crimson. 15 cents each; $1.50 per dozen.

Leichtlinii. A beautiful Japanese species, of neat and elegant habit; the flowers are pure canary-yellow, with crimson spots. 50 cents each. (3 to 5 feet.) August.

LONGIFLOREUM. The well-known beautiful, snow-like, and handsome in the garden. 15 cents each; $1.50 per dozen. Extra large, 25 cents each; $2.50 per dozen. (1½ to 2 feet.) June and July.

Martagon (Turk's Cap). Purple. 20 cents each; $2.00 per dozen. (2 feet.) June and July.

Superbum. The best of our native varieties; when grown in rich soil will frequently reach a height of 6 feet, and will produce awards of thirty flowers of a yellowish-red color. 15 cents each; $1.50 per dozen.

Tigrinum (Tiger Lily). Orange-salmon, spotted black. 10 cents each; $1.00 per dozen. (3 to 5 feet.)

Tigrinum fl. pl. (Double Tiger Lily). This is a plant of stately habit, growing from 4 to 6½ feet high; foliage dark green, very long, bearing an immense number of double, bright orange-red flowers, spotted with black. 15 cents each; $1.50 per dozen. (3 to 5 feet.) August.

Tigrinum Splendens (Improved Tiger Lily). Very large flowers, orange-red, spotted with black. Stems a polished black. 15 cents each; $1.50 per dozen. (3 to 5 feet.) August.

Tenuifolium. One of the most charming of all Lilies. Perfectly hardy, and grow very easily; fiery, scarlet flowers. 25 cents each; $2.50 per dozen. (1 to 2 feet.) June and July.
LILY OF THE VALLEY.

IXIAS

Are admirably adapted for pot culture in the house; several bulbs can be placed in a seven-inch pot or pan. They should, unlike other bulbs, be potted rather firmly, and as early as possible; place in a dry, cool place like Hyacinths; until the flower spikes appear, little water is needed; then, however, keep pretty moist, and give them full light and air. After flowering, gradually open, and when ready shake out and store in paper bags until next autumn, or the bulbs can remain in the soil, which should be kept dry.

Finest Mixed. 2 for 5 cents; 20 cents per dozen; $1.00 per 100.

ORNITHOGALUM.

A Splendid Winter-flowering Bulb.
Sure to Bloom. Arabicum. (See cut.)

This magnificent winter-blooming bulb from Arabia gives great satisfaction. The bulbs are large and solid somewhat resembling Hyacinths; the leaves are long, narrow and graceful; flower-stalks are thrown up to a height of 18 or 20 inches, and produce immense clusters of lovely-white flowers, each having a jet-black center. This distinct character together with the durability of flowers, makes this grand novelty the best winter bloomer now offered. Bulbs can be planted in four-inch pots, and given the same culture as Hyacinths. If planted in open ground, they should be given slight protection. Price of bulbs sure to bloom, 5 cents each; 40 cents per dozen; $2.00 per 100.

MADEIRA VINES.

The Madeira Vine is a popular and favorite tuberous rooted climbing plant, with racemes of feathery white flowers, very fragrant. It will grow anywhere, but does best in a warm, sunny location. There is nothing in the way of a climbing plant for the house that is more satisfactory than the Madeira Vine. It is not hardy. 5 cents each; 50 cents per dozen.

LACHENALIAS.

These are early spring-flowering bulbs, more especially adapted for greenhouse or winter-garden culture. The spotted foliage and spikes of brilliant flowers make them exceptionally striking. They are of the easiest culture and can be had in bloom by Christmas if desired. If grown in cold frame should be protected from frost.

Pendula. (See cut.) Flowers bright red, tipped with green and yellow. Very strong grower and handsome. 20 cents each; $2.00 per dozen.

MONTBRETIA. Firelily.

Crocosmia-flora. This is destined to hold a high place among summer-flowering bulbs as soon as it is more widely known. Very floriferous, bearing lovely spikes of star-like flowers, an inch or more across, which continue in bloom for months. Color, intense orange-scarlet. If left undisturbed and shielded to protect in the coldest sections in winter, they form luxuriant clumps. 3 for 10 cents; 35 cents per dozen; $2.00 per 100.

NERINE.

Nerine Sarniensis. Sometimes called the "Guernsey Lily" and "Japanese Lily." In Japan it is perfectly hardy, but for this climate we would recommend thorough protection against frost. It is better adapted for house pot-plant. It sends up flower stalks 9 to 12 inches, which are crowned with umbels of bright-red flowers, with long curved stamens, giving it an unusually graceful and attractive appearance. 20 cents each; $2.00 per dozen.
OXALIS...

A GENUS of very pretty, neat-growing plants, elegant in foliage and bloom, the latter being produced in great profusion and embracing a wide range of colors. They are the best bulbs we know of for growing in pots for window decoration, their dwarf and spreading habit rendering them specially desirable. They are of the easiest possible culture; may be planted at any time, and, if rich soil is used, will do well without a great deal of attention.

Bermuda Buttercup, greatly improved selection from Oxalis Cornua, grown in the congenial soil and climate of Bermuda until the bulbs have attained great strength, producing bulbs, plants and flowers larger and more luxuriant than the common variety. It is one of the finest of winter-flowering plants for pot culture, of strong, luxuriant growth; one bulb is sufficient for a 6 or 8-inch pot. The great profusion of bloom produced in uninterrupted abundance for weeks is astonishing. The flowers are of the purest bright buttercup yellow. Well-grown plants have produced as high as 70 flower-stems at one time, and over 100 flower-stems in one season. 3 for 10 cents; 35 cents per doz.; $2.50 per 100.

PUSCHKINIA

Compacta. A perfectly hardy bulbous plant of great beauty; its numerous light blue flowers spring up from the center of its peculiar shaped leaves. Especially recommend for edging or borders, flowering in April and May. 3 for 10 cents; 35 cents per doz.; $2.50 per 100.

PAEONIES DOUBLE HARDY HERBACEOUS.

For the past few years the Peony has seemingly taken new life, and is now receiving more attention both in this country and Europe, which it richly deserves. With the introduction of new varieties from China and Japan, and by hybridizing these varieties with our own best sorts, new varieties have been obtained, which for beauty of form, elegance of color, and delicious fragrance, almost rival the rose, the carnation, and the water-lily. The Peony is thus far free from all insects and diseases, and is perfectly hardy in all situations.

If by mail add 5c. each bulb for postage.

TREE PAEONY.

Hardy and more in the form of a shrub, with single or double flowers, enormous size and charming colors, from white to deep crimson. Each $1 to $2.

If by mail add 10c. for postage.

HERBACEOUS PAEONIES.

TRITOMA (Red Hot Poker or Uvaria Grandiflora). For planting in clumps or among shrubbery it is one of the grandest of all plants. The flowers are yellow and red, borne on stalks, making an effective display from August to frost. Hardy, with slight protection. 10 each; $2 per doz.

SNOWDROPS.

There is nothing more beautiful than the little drooping blossoms of this modest flower. It gets along with almost any ordinary treatment, but by planting them here and there on the opening spring. They may also be grown in baskets or pots, for which purpose the double variety is the best.

Double flowering, 3 for 10 cents; 25 cents doz.; $1.75 per 100. Single flowering, 3 for 5 cents; 15 cents doz.; $1 per 100.

ELWESII (The Giant Snowdrops). This is the largest and earliest of all the Snowdrops; flowers almost three times larger than the ordinary variety. Very desirable for forcing; slightly fragrant. 3 for 10 cents; 15 cents doz.; $1 per 100.

SPARAXIS. This exceedingly handsome class of flowers is well adapted for winter blooming in the house. They require the same treatment as Ixias; in fact, bulbs of each can be grown in the same pot with splendid effect. Sparaxis bear large, somewhat cup-shaped flowers, which well display the rare and beautiful combinations of color seen in this family.

Finest Mixed, 2 for 5 cents; 20 cents per dozen; $1.25 per 100.
TRITELEIA.  
**Uniflora.** This is a perfectly hardy little gem, doing equally well in pots or planted in the flower border; it will grow in any soil and produces an abundance of lily-shaped, violet-tinted, white flowers, which emit a fine Primrose perfume. Five or six bulbs grown in a six-inch pot make quite a picture when in flower. 2 for 5 cents; 15 cents per dozen; 80 cents per 100.

TRITONIA.  
Exceedingly bright and free-blooming bulbous plants, highly valuable for both garden and pot culture. The bulb should be grown in pots in a cool frame during winter, and they can either be brought in the conservatory towards spring for blooming, or can be transferred to the open ground in May for summer blooming, or the bulbs can be kept dormant and planted out in May, like Gladiolus, and then be lifted in autumn for winter blooming.

**Mixed Colors.** 3 for 10 cents; 30 cents per dozen; $2 per 100.

TROPÆOLUM.  
Splendid, slender, rapid-growing, graceful plants for wire, globe and trellis work. When planted in pots, use a light, rich soil, with plenty of drainage. 5 each; $1.50 per dozen.

SPIRAeA, or Astilbe.  
(Ready in November.) **Japonica.** The flowers are borne in large, feathery panicles of white, and last a long time in bloom. Large quantities are forced by florists, though a perfectly hardy herbaceous plant. This is undoubtedly one of the most beautiful and graceful subjects grown, its foliage and flowers combined making it one of the finest genus for winter and spring decoration in the house and conservatory. (See cut.) 10 each; $1 per dozen; $5 per 100; postage, 10 cents per root extra.

**Japonica Grandiflora.** New, large flowering. The flowers are very large, of the purest white, and stand well above the foliage in charming, airy sprays. Perfectly hardy, and unsurpassed for forcing. **Silver Medal Award by Massachusetts Horticultural Society.** 15 each; $1.50 per dozen. Postage, 10 cents per root extra.

SCILLA.  
They are all quite hardy and adapted for cultivation in the open ground, and they are also very suitable for growing in pots. The flowers are borne in spikes of from six to twelve blooms each, the individual, bell-like blossoms being gracefully pendant.

3 for Dz. 100  
Siberica or Praeceax, a perfect gem, flowers rich. **Dz. 100**

Campanulata. white. 10c. 25 $1.50  
" blue " 25 1.50  
rose " 25 1.50

**Bifolia,** beautiful bright blue...2 for 10 cents.

**Stern Snowflake** (Leucium)  
Flowers similar to monter Snowdrops, and have the fragrance of the Violet, blooms early in the spring, with white blossoms, tipped green. 3 for 10 cents; 30 cents per dozen; $2 per 100.

WINTER ACONITE (Fransus)  
(Chionodoxa.) Their golden blossoms form a striking contrast to the pure white Snowdrop. Winter Snowflake, and the lovely blue Scillas and Chionodoxa, perfectly hardy, is also an excellent pot plant. 3 for 10 cents; 25 cents per dozen; $1.50 per 100.

---

**RANUNCULUS.**

AMONG dwarf flowers these are unrivaled for lovely form and bright and attractive colors, ranging through gorgeous shades of white, crimson, yellow, purple, and black, many of them being beautifully marked with other shades. They flower profusely in pots in the house, or if grown in frames, in the spring. (See cut.)

**Turban Mixed.** Peony formed flowers, large and early, vivid colors, 2 for 5 cents; 20 cents per dozen; $1.00 per 100.

**Giant French Mixed.** Remarkably vigorous growers, with immense and gorgeous flowers. 2 for 5 cents; 20 cents per dozen; $1.90 per 100.

**Double Persian Mixed.** Camellia or rose-shaped flowers, very double, rich variety of colors. 2 for 5 cents; 20 cents per dozen; $1.00 per 100.
**BULB COLLECTIONS**

These collections are put up ready for delivery and varieties cannot be changed.

**Collection of Bulbs especially recommended for House Culture.**

Price $1.25. *If by mail add 10c for postage.*

- 6 White Roman Hyacinths.
- 3 Dutch Hyacinths.
- 6 Single Tulips.
- 6 Double Tulips.
- 3 Narcissus Von Sion.
- 3 Narcissus Polyanthus.

**Collection of Hardy Bulbs for Outdoor Culture.**

100 Bulbs in all, of the following varieties.

Price $2.50. *If by mail add 25c for postage.*

Hyacinths. Crocus.
Anemone. Crown Imperial.
Ranunculus. Iris.
Chionodoxa. Narcissus.
Puschkinia. Scilla.
Tulips. Snowdrops.

**HARDY ROSES**

FOR FALL PLANTING.
Ready about Oct. 1.

We have an exceptionally fine lot of Hardy Roses two and three years old, grown on Maucetii stock, and if planted this fall will give a good crop of blooms next season. The plants are all large, strong rooted, and must be forwarded by express.

We have a large variety of Hardy Roses which we are unable to give the names of on account of space. We can supply almost any variety.

Our selection of kinds, 35 cents each: $3.00 per doz.

For selection of kinds, 40 cents each: $5.50 per doz.

**Able Carrier.** Velvety crimson, very bright center.

**Alfred Colombe.** Rich red, very fragrant.

**Anna de Diesbach.** Lovely carmine, large, double, very free bloomer.

**Baron de Rothschild.** Bright, rosy crimson.

**Baroness de Rothschild.** Light pink, often deepening to rose.

**Captain Christy.** Delicate flesh, rosy center, medium size.

**Duke of Edinburgh.** Bright crimson, large and double.

**Fisher Holmes.** Crimson-scarlet, perfect form, free bloomer.

**General Jacqueminot.** Brilliant crimson.

**Gloire Lyonnaise.** Creamy white, shading to lemon in center.

**Jules Margottin.** Carmine rose, free bloomer.

**La France.** Silvery rose, changing to pink, very fragrant.

**Magna Charta.** Pink, suffused carmine.

**Mrs. John Lang.** Soft pink, large and fine.

**Mme. Gabriel Luizet.** A grand pink, much used for forcing.

**Paul Neyron.** Deep rose, the largest variety.

**Persian Yellow.** Yellow, the deepest yellow rose.

**Prince Camille de Rohan.** Deep velvety crimson.

**Ulrich Brunner.** Cherry red, a grand variety.

**Rambler Climbing Roses, 50 cents each.**

- The Crimson, Pink, White and Yellow.

**STRAWBERRIES**

**POT-GROWN STRAWBERRY PLANTS.** Ready by the dozen and 100 after Aug. 1, and by the 1,000 after Aug. 16. Layer plants will not be ready generally till Sept. 1, except in a few cases.

We fill orders for them as fast as possible.

Those marked (P) are pistillate, and will not fruit alone but should be placed near some perfect flowered variety.

Price, 50 cents per doz.; $2.50 per 100; $20 per 1,000.

**SAMPLE.** Large fruit of fine flavor and color.

**NICK OHMER.** Second early, glossy, dark red, excellent flavor.

**CLYDE.** A large, even-shaped berry, rather light color.

**BRANDYWINE.** Of excellent quality, large, conical shape.

**GLEN MARY.** Deep, rich crimson, firm, solid and of high quality.

In layer plants about Sept. 1, at these prices.

PLANTS FOR HOUSE DECORATION

DIRECT FROM OUR GREENHOUSES AT ARLINGTON.

How to Send Money. Remittances can be made in current bank bills, post-office orders, registered letters, or by drafts on New York and Boston. Post-office orders are preferable to all others, as there is no possibility of loss; but when these cannot be obtained registered letters are surest to reach their destination.

We Will Guarantee The safe arrival of all plants sent by express. We would earnestly request our customers, on receipt of goods, to notify us at once if they have received any injury in transit, using special care to, in every case, give us a list of what was injured, that we can replace them. When received in good condition, our responsibility ceases.

All plants not sent by express are at the risk of the purchaser.

COCOS WEDELIANA.
The most elegant and graceful of all the smaller Palms. Its slender, erect stems are freely furnished with its gracefully arching leaves, made up of innumerable long, narrow pinnate or segmental of a rich green color. The Cocos are admirable for fern dishes, as they are of slow growth and maintain their beauty for a long time. (See cut.) 3-inch pots, 12 inches high, 50 cents each; 4-inch pots, 15 inches high, $1.00 each.

ASPARAGUS SPRENGERI.
(See cut.) A beautiful new variety of this graceful class of plants, especially useful to grow as a pot plant for house decoration or for planting in hanging baskets, where it makes a graceful drooping plant with branches or fronds, 4 to 8 feet in length, of a rich shade of green; a useful plant for cutting for decorating as it retains its freshness for weeks after being cut. It is easily managed and will grow in almost any position. 25 cents each; $2.50 per dozen.

Aspidistra Lurida Variegata.
A beautiful plant, with large, lance-shaped leaves, finely variegated with clear, cream-colored stripes. An elegant window or conservatory plant of the easiest culture. $1.00 each.

CROTONS. Assorted.
Gorgeousely colored foliage plants, suitable for warm conservatories and greenhouses. 50 cents and $1.00 each.

CAMELLIA JAPONICA.
We offer splendid plants of these bushy, well-grown specimens; all in splendid health, and of thrifty, clean growth. The varieties are the best, and embrace double white, double pink, double red and double variegated. Price, 1st size, $1.00 each.

BEGONIAS, in Variety. We have a large collection of all the leading sorts, both the flowering and foliage sorts. 25 and 50 cents each; $2.50 and $3.90 per dozen.

AZALEA. Chinese Azalea.
Beautiful plants for window or conservatory decoration. Few plants reward the cultivator more liberally with bloom than these. The plants we offer are fine, shapely specimens, with well-formed heads of the best and most distinct kinds, and even when not in flower are fine decorative plants. Our collection comprises the cream of the best Continental establishments; all the sizes offered will flower freely in proper season. Strong plants by express.

1st size, 14-16 inch heads........ $1.50 each; $15.00 per dozen.
2nd size, 12-14 inch heads..... 1.00 each; 10.00 per dozen.
3rd size, 10-12 inch heads..... .75 each; 7.50 per dozen.
ARAUCARIA EXCELSA. Norfolk Island Pine.

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other, at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. (See cut.) Extra fine plants, 24 to 30 inches high, $5.00 each; 15 to 18 inches high, $2.00 each.

DRACAENA.

Indivisa (The fountain palm). An excellent contrast when used with palms and other decorative plants in the house, and in this respect is unsurpassed for hardiness; 50 cents and $1.00 each.

Terminalis. A splendid plant for house and window decoration, with bright, tropical-looking foliage of rich crimson color, beautifully marked with white and pink in well-developed plants. Good-sized plants for 50 cents each.

FICUS.

Ficus Elastica. The well-known India-rubber tree, one of the very best plants for table or parlor decoration; its thick, leathery leaves enable it to stand excessive heat and dryness, while its deep glossy green color always presents a cheerful aspect. Fine plants, 60 cents, 75 cents and $1.00 each.

GREVILLEA ROBUSTA.

(The Australian Silk Tree.)

A magnificent plant for decorative purposes, quicker growing than a Palm, and equally effective; of easy growth; finely cut foliage, rivalling a rare Fern. The young growing leaves are a light bronze color, the tips being covered with soft down, closely resembling raw silk, hence the name, "Silk Tree." In its native place it attains magnificent proportions and produces an abundance of bright, orange-colored flowers. The leaves are fine for design, so fern-like and not liable to wilt. No collection complete without it. 25 cents each; larger size, 50 cents.

PANDANUS. Screw Pine.

Pandanus Utilis. Also called Screw Pine from the arrangement of the leaves on the stem. This is one of the most useful of our ornamental foliage plants; excellent for the center of vases and baskets, or grown as a single specimen; for in or out-door decoration. $1.00 to $5.00 each.

Veitchii. This is one of the most attractive of decorative plants. The leaves are light green, beautifully marked with broad stripes and bands of pure white, and gracefully curved. $1.00 to $3.00.

PALMS

Palms are now indispensable in all decorations, whether for apartments, conservatories, or for tropical bedding in summer. The large demand for the past few years has induced us to considerably increase our facilities for growing this class of stock. The varieties enumerated below are those best adapted for house culture.

KENTIAS.

The Kentias, both Belmoreana and Fossettiana, are the hardiest in cultivation, and give better satisfaction as a house plant than any other varieties. They are of slow growth, and are not affected by the dust and dry atmosphere of the house, and were we to select one Palm only, it certainly would be a Kentia. The two varieties are of similar appearance, the former being dwarfer and more spreading, and the latter of stronger growth, with broader, heavier foliage.

ARECA LUTESCENS.

This majestic Palm is thought by many to be without a peer for strength and elegance. 50 cents each for 4-inch pots; $1.00 each for 5-inch pots; larger size, $2.00.

KENTIA BELMORERANA.

4-inch pots, 5 to 6 leaves, 15 inches..........................$1.00 each.
6-inch pots, 6 leaves, 20 to 22 inches..........................1.50 each.
6-inch pots, 6 leaves, 24 to 30 inches..........................2.50 each.

KENTIA BORBONICA.

Chinese Fan Palm. This popular variety is too well known to require description. We grow them at Arlington.

4-inch pots, 6 leaves, 15 inches high..........................$1.00 each.
6-inch pots, 6 leaves, 20 inches high..........................1.50 each.

PHOENIX RECLINITA. A strong-growing form of the Date Palm, with dark green, glossy foliage; a most desirable variety.

5-inch pots, 15 inches high..........................$1.00 each.
6-inch pots, 24 inches high..........................1.50 each.
7-inch pots, 30 inches high..........................2.00 each.

FERNS

Adiantum Cuneatum. A very beautiful and graceful fern, its delicate fronds being much used in cut flower. 25 cents to 50 cents each.

Nephrolepis Exaltata Bostoniensis. A really graceful fern, multiplying very fast in throwing out vines on which grow several plants again. Per plant, 25 cents; 5 for 50 cents; large plants, from 50 cents to $2.50 each.

Nephrolepis Davallieoides Furanca. A beautiful and distinct crested variety, with numerous arching fronds, 3 to 4 feet long, 50 cents to $2.00.

Davallia Stricta. One of the finest of the ferns for pots and fern pans; fronds of strong texture and a beautiful shade of green. 25 cents to 50 cents.

BELMORERANA.

BELMORERANA.
POULTRY SUPPLIES

THE STAR INCUBATOR.

The heater or radiator in the Star Incubator is placed in the egg-chamber directly over the eggs and is heated by the lamp hanging under the incubator. Connection is made between the lamp and heater by means of a flexible, high-temperature cord, arranged from the lamp to the heater. The heat after leaving the lamp enters the heater, through which it passes three times before it escapes. In this manner every particle of heat is utilized and every chick is uniformly heated to the same degree. Regardless of what may be the existing conditions in the room or cellar where the incubator is located, whether it be very damp or even water standing on the floor or whether it is very dry by the time the air has come in contact with the heat-flue entirely surrounding it and in the same manner passing across the radiator, it always will be dry and warm when it is discharged into the egg-chamber.

Animal Meal. A specially prepared, egg-producing food for fowls. Made from fresh meat and fresh bones, carefully selected, dried, and ground. Also sweet meal. 5 lbs., 25c; 10-lb. bags, 40c; 25-lb. bags, 75c; 50-lb. bags, $1.25; 100-lb. bags, $2.25.

American Poultry Food. Ground wheat, corn, oats and barley, klin-roasted 5-lb. bags, 25c; 10-lb. bags, 50c; 50-lb. bags, 55c; 100-lb. bags, $1.50; 500-lb. bags, $7.

Boiled Bone, Blood and Meat. Per 100 lbs., $2.25.

Bone Meal for Cattle. Made from carefully selected bone reduced to a meal. White, clean and perfectly sweet. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 50c; 50 lbs., $1; 100-lb. bags, $2.

Bone Meal, Ordinary. When ordering, please state kind wanted. 5 lbs., 25c; 10 lbs., 50c; 25 lbs., 65c; 50 lbs., $1; 100-lb. bags, $2.

Chicken Food, Poultry. Is pronounced by experienced poultrymen to be the best food on the market for starting growth in chicks and keeping them in health. 1-lb. pkg., 10c; 3-lb. pkg., 25c; per 100 lbs., $1.

Cut Clover Hay. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 55c; 50 lbs., $1; 100 lbs., $2.

Clover Meal, Pioneer. Is clover hay ground to a fine meal, in an especially designed meal to a meal fine as middlings. It is the best winter egg food. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 55c; 50 lbs., $1; 100 lbs., $2.

Cracked Bone. 5 lbs., 25c; 25 lbs., $1; 100 lbs., $2.25.

Chicken Food, Greene's. This food is made from selected grains of the first quality, and is especially prepared as a ration on which chickens may be raised with the best possible results. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 55c; 50 lbs., $1; 100 lbs., $2.

Charcoal. It keeps the crop sweet, and as a regulator for the bowels, no better or simpler remedy has yet been discovered. Granulated for use in open dishes, 1 lb., 7c; per 100, $5.50. Powdered for use in mash, 1 lb., 6c; per 100, $4.50.

Canker's Roup Cure. It is simply put in drinking-water and the chicken takes its own medicine. It prevents colds and is unequalled for Canker, especially in pigeons. One 50-cent package makes 25 gallons of medicine. Price, 25c.

No artificial moisture needed. Air is warm and dry; egg-chamber is perfectly ventilated. No cold corners and no cold drafts to strike eggs. In the Star Incubator we have simplicity, accuracy and no guess-work. Prices from $19 to $37.

The Lincoln Hatcher. This small, convenient machine is made especially for those who wish to produce a limited number of chicks by artificial methods. It has the same system of ventilation and regulation as our other method, also the nursery under the egg-tray.

60 Egg, Single Case, $6.00
60 " Double " 8.00

Brooders. Both indoor and outdoor, made in the latest improved methods of heating. Price from $5.00 to $16.00

Special Catalogue of incubators and brooders sent on application. There is information in this that every poultry raiser wants. Write us.

Pigeon Food.

Canada Field Peas. Per qt., 10c; pkg., 50c; bu., $1.25.

Barley. Per qt., 10c; pkg., 50c; bu., 90c.

Buckwheat. For Pigeons and young poultry. Per qt., 10c; pkg., 30c; bu., 90c.

Hemp Seed. Used largely for feeding birds and pigeons. Per lb., 10c; per 100 lbs., 84.

Rust's Havens Climax Condition Powder. Cure for Grapes, Fowl-Cholera, and other Poultry Diseases, etc. 1 oz., 25c; 2 oz., 50c; 4 oz., $1; 8-oz. box, $1.50; 20-lb. box, $3.50. These three sizes are too large for mailing, but can be sent by express or freight.

Rust's Havens Roulpills. Box of 50 Pills, 25c; box of 250 Pills, $1. Mailed on receipt of price.

Rust's Egg Producer. 1-lb. box, 25c; 2-lb. box, 50c; 3-lb. box, 90c; 6-lb. box, $1; 10-lb. box, $1.50; 25-lb. box, 53.50. These three sizes are too large for mailing, but can be sent by express or freight.
Poultry Supplies—Continued.

Lee's Lice Killer. Saves labor, saves expense, saves time, and saves the fowl and hogs. Where freedom from vermin is a must, hours spent in dusting, dipping, or greasing fowl will be saved. The large farm and poultry-ranch are seldom free from lice and mites. Tool box Lee's Lice Killer; test it thoroughly, and if you do not find it to be as represented by us, we will refund your money. Don't expect a shortcut to do the work of a gallon. Don't expect a little dab here and there to renovate a large poultry-house that may have been infested for years with mites and other vermin. Use it honestly and with a mixture of common sense, and you will say, as others, that the value of Lee's Lice Killer was the best investment you ever made. 1 qt., 30c; 2 qts., 50c; 4 qts., 75c; 5 gal., $2.50.

Death to Lice. (Lee's) 15 oz., 25c; by mail, 40c; 3-lb. pkg., 50c; by mail, $1; 100 oz. pkg., $1.

Tobacco Dust. An exceedingly fine powder. Valuable as an Insecticide. Per lb., $0.50 net; per 100 lbs., $2.50.

Tobacco Stems. Used to mix with nest material, nesting, etc. Per lb., 5c; per-half, $1.50 net.

P. P. Q. F. Oil, Wood and Disinfectant. Destroys Fleas, Lice and Vermin on Dogs, Cats and all kinds of Animals. Poultry, Plants, etc. It also prevents the eggs of Vermin from hatching, and stops breeding. 25c per pkg.

Drinking Founts.

Rawson's Galvanized. 2-qts., 35c; 4-qts., 50c; 8-qts., 75c.

Earthenware. 1-qts., 20c; 2-qts., 30c; 3-qts., 40c; 4-qts., 50c.

Sanitary. 1-gal., 50c; 2-gal., 85c.

Nest Lines. Medicated, 10c each; per doz., $1. Porcelain, 5c each; per doz., 25c.

Wire Nets. Strong, clean, 35c each.

Garden Requisites.

Bellow's, Woodason's Vaporizing. This throws a spray as fine as mist, rendering the use of strong solutions of kerosene, fish-towel tobacco soap and poison woods perfectly safe on tender-rooted plants, killing the insects without burning the leaves. It also forces the fluids into every crevice. Price, large size, $2; small size (for house use), $0.25.

Fumigators. For smoking greenhouses; self-acting, and may be left with perfect safety; all the materials consumed and gives off a dense smoke made of extra heavy galvanized iron.

**Note:** If the amount paid by Express C.O. is over 50c., it must be forwarded by mail. If Express (and Express) is sent, the balance is to be sent. W. W. RAWSON & CO., 12 and 13 Farnam Hall Square, Boston.
RAWSON'S ARLINGTON LAWN SEED

is a mixture of Extra Recleaned Seeds. It has been the aim of this firm to obtain the best mixture of grasses for lawns. The result has been many trials of the different varieties, many changes in our mixtures, as our experience has taught us from time to time, and to-day we are confident that Rawson's Arlington Lawn Seed is the best that can be had for obtaining a beautiful deep green color in a short time from planting and retaining the same during the season. It has no tendency to grow in clumps or stools, as we have allowed no grasses of this nature to be in the mixture. The Rawson's Arlington Lawn Seed is made up from extra recleaned seeds of the close growing varieties. We have taken special care that no light or slow-growing varieties be included in this mixture, so that when the seed is sown, if the ground is in proper shape, it will start at once and in a few days look green.

The Arlington Lawn Seed being free from chaff starts at once before the weeds. This alone is worth more than the price of seed to anyone seeding a new lawn. It requires less seed to sow the lawn, weighs 32 lbs. to the bush. 1 qt. will sow 600 sq. ft., 30c. 2 qts. will sow 1,200 sq. ft., 55c. 4 qts. will sow 2,700 sq. ft., $1. 8 qts. will sow 5,400 sq. ft., $2. 2 bush., or 64 lbs., will sow 1 acre. Price per bush., 87.50.

RAWSON'S VELVET LAWN GRASS MIXTURE.

This mixture has been sold by us for the past sixteen years and has always given satisfaction; it is composed of fine growing grasses. Many of these fine growing varieties, it is well known, have light seed which is almost impossible to obtain free from some chaff, and it is somewhat longer in germinating, but when once above ground, if properly managed, will produce a fine velvet lawn and permanent sod. Weighs 16 lbs. to bush. 1 qt. will sow 300 sq. ft., 20c. 2 qts. will sow 600 sq. ft., 35c. 4 qts. will sow 1,350 sq. ft., 65c. 8 qts. will sow 2,700 sq. ft., $1. Sow 4 bush., or 64 lbs., to the acre. Price per bush., $4.

The photograph represented here shows only eight of the twenty-five greenhouses at Arlington. Giving, as it does, only a partial view, one can readily imagine the extent of our plant and the facilities we have at Arlington to conduct our plant business. During the winter we use all of these houses in growing vegetables and flowering plants. Many of them are used for growing lettuce and cucumbers. You will notice in the distance, between the last two houses, six electric light poles on which are six large arc lights; these are used at night for forcing the growth of lettuce. We grow the New Hothouse Lettuce, plain leaf, also Rawson's crumpled leaf, introduced by us, which are especially adapted for growing inside. Rawson's White Spine Cucumber is the only variety we grow inside.—W. W. Rawson & Co.
